Claude 101 AI Certification —
Anthropic Academy (90%)
Gen AI 101 Specialist — NASSCOM
(A)
Digital Marketing Certified —
Erasmus+ (EU) (Pass)
NDA WIZQUIZ-23 Winner — All
India Comp. (9th)

PROFESSIONAL SUMMARY

I am a B.Sc. IT student at SRKI in Surat specializing in C#, ASP.NET, and SQL Server. I bridge the gap between complex Data Structures and functional business requirements, from building custom MVC engines to architecting secure booking systems. My approach combines backend stability with modern security practices.

EXPERIENCE

VIKAS ENTERPRISE

March 2026

Freelance Web Developer

- Architected 'VLL Pro' ERP using SHA-256 cryptographic hashing to ensure financial data integrity.
 - Engineered a real-time Cashbook sync engine to automate multi-mode payment reconciliation.
 - Transitioned business from manual paper ledgers to an immutable digital audit trail.
- Reduced daily reconciliation time by 85% and eliminated manual entry errors.

FASHIONCLUBSTUDIOS

Dec 2025 – Feb 2026

Digital Marketing Intern

- Executed end-to-end Meta Ads campaigns including A/B testing and pixel tracking.
 - Analyzed CTR and CPM metrics to optimize budget allocation for social reach.
 - Created digital assets and managed brand identity across social platforms.
- Scaled organic reach to over 100,000 views within the first 30 days.

OPERATION ZERO BRIBE (Public Initiative with Govt of Gujarat)

Dec 2025 – Mar 2026

Core Member (Season 1)

- Orchestrated large-scale civic transparency campaigns across prominent venues (including V.T. Choksi Law College, VR Mall, and Surat Fort) in collaboration with government officials.
 - Educated the public on systemic integrity, compliance frameworks, and social engineering risks, effectively bridging government directives with actionable security awareness.
 - Directed digital outreach and authored official impact reports, scaling the initiative to achieve feature coverage across 32+ publications, including major dailies like Gujarat Samachar, Divya Bhaskar, and The Times of India.
- Successfully managed a ₹50,000 budget with the group, directly educated over 5,000+ citizens, and massive city-wide awareness.

PROJECTS

Electronic Booking Management System

ASP.NET Web Forms · SQL Server · ADO.NET · C#

Enterprise-level booking system with automated DB seeding, role-based authentication, and a dynamic device inventory managed via DataList and Repeater controls.

SocialMedia DSA Web Engine

ASP.NET MVC · Custom Stack/Queue · Bubble Sort

A functional social media simulation showcasing manual DSA implementations: LIFO for undoing deletions, FIFO for notifications, and $O(n^2)$ sorting for feeds.

Legacy Ledger (VLL Pro) & Cashbook

Vanilla JS · LocalStorage · CryptoJS · PWA

Security-focused offline accounting suite for retail wholesalers. Features secure PIN entry, SHA-256 data hashing, and JSON-based cloud synchronization.
